

## Showers

*Most of all, a shower is a place to wash away the daily grime. It's a task that all our showers handle in style. But a shower can be so much more than that – depending on your needs and the space available. This is something we focus on when we design our showers. Our three lines include everything from shower screens to steam enclosures with light therapy and many other luxurious features. Each line differs in style and form, to give you the opportunity of individual choice. What they all have in common are high standards of quality and finish.*

**Cube**

Designed by the Swedish Propeller group and nominated for the 2007 Swedish Design Award. A light and airy Scandinavian design that also has many practical features. The top model combines steam, massage and light therapy. The chosen materials are glass, wood and aluminium. See more of Cube on page 104.

**Entré**

A adaptable series of showers that can be tailored to suit the size of your bathroom and your individual needs. The range includes quadrant, straight and hinged variants, as well as double doors for alcove showers. Glass panels are also available in a choice of decorative designs. See more of Entré on page 110.

**Fasett**

Our classic shower range with solid price worthy showers made to high quality. Available as a cubicle or for wet room solutions. All with stable sliding doors. See more of Fasett on page 114.

# Cube

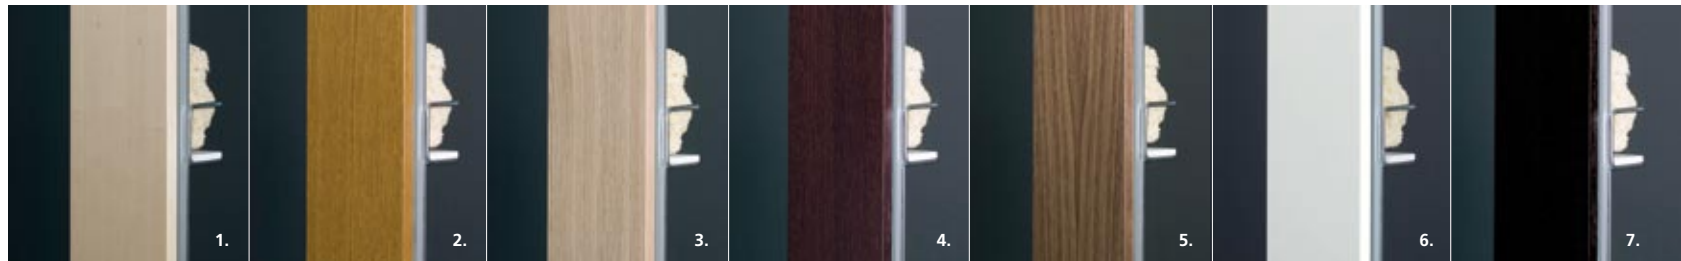

The shower range Cube gives a smooth design experience. Our Cube shower was nominated for Scandinavia's prestigious "Grand Design Award 2007". Scandinavian design at its best; light spacious with a luxurious feel. Clever use of materials such as glass, wood and anodized aluminium and to finish it all a shower tray in cast marble, gives Cube its unique feel. Choose from a range of sizes to suit your space; from a shower screen to a complete steam shower including chromotherapy. The choice is yours. *Design: Propeller.*

1. The inside of the anodised aluminium panels supports three wire shelves with a composite base. Provides practical shower storage without the need to drill holes for separate shelves and thereby risk a leak through your wall.
2. Towel hook, close to hand.
3. The shower tray is only 8 cm high and has a textured surface with concealed drain/hair trap. Attractive and comfortable to stand on.
4. Easy to clean. Just lift the cover off the shower tray to gain access to the existing floor drain and hair trap.
5. Optional massage jets for a real touch of luxury.
6. The exterior wood panels match the furniture and other fittings in the bathroom.
7. A profile between the glass walls means that the labyrinth shower is very stabile.
8. The profile has discreet attachments and can be fixed either to the wall or to the ceiling.
9. Cube is also available in an exclusive steam shower version that is equally ideal.
10. Regain harmony of body and soul with steam shower chromotherapy.
11. Stool for Cube shower & steam 90x90, but it works anywhere in the bathroom. Measures W: 74 cm H:48 cm D:27 cm.

## CHOOSE YOUR WOODEN PANEL TO MATCH THE FURNITURE
